

### How will the account value grow while I am paying the premiums?

The growth of account value will depend on:

- The amount and timing of your premium payments; and
- The investment yield that will be credited to your account value every month.

An illustration will be provided to give you an idea of how each premium payment will increase the account value upto the end of the term.

Please note that all the amounts shown in the illustration are only projections and not guaranteed. Actual growth can be more or less than the illustrated value.

### What is the difference between the account value and net cash surrender value?

Net cash surrender value equals the account value less a surrender charge and any amount due to the Company. The surrender charge depends on the policy year. The policy acquires cash value after two policy years.

### Partial Withdrawals

Partial Withdrawals can be made from the Account Value after the policy has been in force for at least 5 full years as per the policy's terms and conditions. The amount withdrawn is considered a permanent withdrawal and does not have to be repaid. A partial withdrawal will, however, reduce the coverage amount on child's life by the amount of partial withdrawal.

### What other riders can I attach to the plan to enhance benefits payable on death or disability?

In addition to the above mentioned benefits, customers of Savings Plan for Daughter's Marriage can choose from the following range of supplementary benefits:

- **Income Benefit – Death (IBR-Death):** A monthly income benefit will be provided

to the designated beneficiary following the death of the owner up to the end of the elected term.

- **Income Benefit – Disability (IBR-Disability):** A monthly income benefit will be provided following the permanent and total disability of the owner up to the end of the elected term.

- **Accidental Medical Reimbursement (AMR):** This rider provides protection for reasonable, customary and necessary medical expenses in or out of hospital that are made necessary by accident. AMR can only be chosen with the compulsory ACB rider.

- **Permanent and Total Disability (PTD):** In the event the owner suffers permanent and total disability, the PTD benefit amount is paid in 3 installments of 20%, 30% and 50% over a period of 24 months during the continuance of disability. In case the owner dies before receiving all the installments, the remaining installments are payable in a single lump sum.

### What if the child dies during the premium paying period?

God forbid, in case of child's death during premium paying term, the accumulated account value or the coverage amount, whichever is higher will be paid to the beneficiary.

### Illustration of Benefits

The following example portrays the expected cash value for a child of 4 years of age with a basic annual premium of PKR 150,000, and with a Coverage Multiple of five. The Projected Cash Values are as follows:

Policy Years	8% Growth Rate		10% Growth Rate		12% Growth Rate	
	Main Plan Death Benefit	Cash Surrender Value	Main Plan Death Benefit	Cash Surrender Value	Main Plan Death Benefit	Cash Surrender Value
5	750,000	671,333	750,000	706,952	750,000	744,167
10	1,814,927	1,814,427	2,010,532	2,010,032	2,228,283	2,227,783
15	3,371,803	3,371,303	3,955,691	3,955,191	4,651,645	4,651,145
20	5,493,974	5,493,974	6,861,894	6,861,894	8,613,660	8,613,660

**We have a solution**

# SAVINGS PLAN For Daughter's Marriage

## About IGI Life

IGI Life Insurance Limited, part of the Packages Group, marked its entry into the Life Insurance business through acquisition of controlling shares in American Life Insurance Company (Pakistan) Limited in April 2014. Acquisition by Packages Group makes IGI Life a one-of-a-kind life insurance provider in Pakistan, as IGI Life's multinational heritage is now coupled with the local experience of the Packages Group, one of the most reputed business conglomerates in the country, having several joint ventures with leading global brands in the FMCG, Pharmaceutical and Packaging sectors. IGI Life's current product suite includes Life Insurance plans, Accident & Health Insurance and Employee Benefit Solutions. IGI Life is also amongst the first few companies to commence the Family Takaful business in 2015 under Window Takaful Operations, thus offering Shari'ah-compliant solutions to our clients.

## About Vitality Group

Guided by the core purpose of making people healthier, Vitality is the leader in improving health to unlock outcomes that matter. By blending smart tech, data, incentives, and behavioral science, we inspire health changes in individuals and organisations. Vitality brings a global perspective through successful partnerships with the smartest insurers and most forward-thinking employees around the world. More than 10 million people in 22 countries engage in the Vitality programme.

## How does the Plan work?

The Plan is designed to generate funds to meet your daughter's marriage expenses on payment of regular premium.

We will need the following information to quote the premium:

- Years to Marriage
- Target Marriage Fund
- Your Present Age

You may have to make an estimate of the current level of marriage expenses and apply inflation factors to estimate the expenses at the time your daughter is expected to get married.

The premiums will be payable from the date you buy the policy until the time you need the funds for the marriage. This period can vary from 10 years to 25 years. At the end of this period, the accumulated account value will be paid to you.

## What happens, in case of death or disability of the owner before completing the premium paying period?

The plan provides insurance protection at a reasonable additional premium that guarantees payment of all the future premiums from the date of death or disability of the owner. This means, IGI Life will continue paying premiums as originally planned even if the owner is disabled or not there, God forbid. This benefit is covered by Family Protection Benefit rider (FPR). Also, under Accident Care Benefit rider (ACB), accidental death, disability and dismemberment of the owner are covered. Both riders are

compulsory, however, Company may restrict issuance of these benefits depending on insurability of the owner.

## Do I have to submit any evidence of good health, undergo medical examination to buy this plan?

Yes, evidence of good health will be required. You and/or your child may also have to undergo medical examination depending on the coverage amount, age and health condition of the proposed insureds.

## How will my account value build up by the premiums I pay?

The premiums paid each year (less premium related expenses) will be credited to your individual account and invested in secured instruments, like government securities, bonds of reputable public sector corporations and so on. Every month deductions will be made from your account value for management charges, cost of insurance, if any, and premium for supplementary contracts, if any, and your share of investment earnings will be credited.

This process will continue during the term of the policy.

## What percentage of the premiums I pay is allocated to my account value?

The proportion of Premiums allocated to Account Value is as follows:

Policy Year	%Allocation of Premium to Account Value
1	30
2	80
3	85
4-5	95
6 onwards	100

## What other charges are deducted from my account value?

The following charges are deducted.

<b>Administration Fee</b>	PKR 150 per month
<b>Processing Fee</b>	PKR 500 on each partial withdrawal and complete surrender
<b>Fund Management Charge</b>	150 bps from the annual yield

## Will my account continue to grow even if I stop paying premiums?

Even if you stop paying premiums, the monthly deductions for expenses and cost of insurance in any case will continue to be made from the account value. Your account value will also continue to be credited with investment earnings.

Your policy will terminate if the net cash surrender value becomes insufficient to cover the monthly deductions. As such, it is advisable to continue premium payments under the policy.

## Would I be able to make withdrawals from my account value or take loan before my daughter reaches the expected age of marriage?

Yes, you may make withdrawals from your account value after the policy has been in force for at least 5 years, subject to minimum and maximum withdrawal amounts as per Company rules. You may also take loan up to 90% of the net cash surrender value as provided in the policy provisions.

But please note that the main purpose of the account value is to save for your Daughter's Marriage. It is therefore, not advisable to utilize the accumulated funds for any other purpose.
